INDEPENDENT ACCOUNTANTS' REPORT
ON APPLYING AGREED-UPON PROCEDURES

Dr. Sheri N. Everts, Chancellor
Appalachian State University
Boone, NC 28608

We have performed the procedures enumerated below, which were agreed to by the Chancellor of Appalachian State University, solely to assist you in evaluating whether the accompanying statement of revenues and expenses of Appalachian State University is in compliance with the National Collegiate Athletic Association ("NCAA") Bylaw 3.2.4.17 for the year ended June 30, 2021. Appalachian State University's management is responsible for the statement of revenues and expenses ("statement") and the statement's compliance with those requirements. This agreed upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Agreed-Upon Procedures Related to the Statement of Revenues and Expenses

The procedures that we performed and our findings are as follows:

I. Minimum Agreed-Upon Procedures for Compliance

- a. Regardless of the situation, the independent accountant shall test specific elements of the control environment and accounting systems that (1) are unique to intercollegiate athletics and (2) have not been addressed in connection with the audit of the institution's financial statements (e.g., the system of accounting for revenues from ticket sales).

Findings: Our test of the control environment and accounting systems related to ticket tracking and sales indicated that controls are in place and appear to be functioning properly.

- b. The independent accountant shall perform agreed-upon procedures related to the institution's procedures for gathering information on the nature and extent of affiliated and outside organizational activity for or on behalf of the institution's intercollegiate athletics program. The institution must provide the independent accountant with the institution's procedures for gathering information on the nature and extent of affiliated and outside organizational activity for or on behalf of the institution's intercollegiate athletics program. The independent accountants will then test those procedures.

Findings: Our tests indicated that the procedures appear to be functioning properly.

II. Minimum Agreed-Upon Procedures for Affiliated and Outside Organizations

- a. The institution shall identify all intercollegiate athletics-related affiliated and outside organizations and obtain those organizations' statements for the reporting period. Once the institution has made these statements available, the independent accountant shall agree the amounts reported in the statement to the organization's general ledger or, alternatively, confirm revenues and expenses

directly with a responsible official of the organization. In addition, the institution shall prepare a summary of revenues and expenses for or on behalf of intercollegiate athletics programs affiliated and outside organizations to be included with the agreed-upon procedures report.

Findings: Amounts reported by the Appalachian State University Foundation, Inc.'s records agreed to the institution's intercollegiate athletics statement of revenues and expenses. No exceptions were noted.

- b. The independent accountant shall obtain and review the audited financial statements of the organization and any additional reports regarding internal control matters if the organization is audited independent of the agreed-upon procedures required by NCAA legislation. The institution's independent accountant shall also inquire of institutional and organizational management as to corrective action taken in response to comments concerning internal control structure (if any).

Findings: No additional reports regarding internal control matters or comments concerning internal control structure were noted upon review of Appalachian State University Foundation, Inc.'s audited financial statements.

III. Minimum Agreed Upon Procedures for Notes and Disclosures

- a. Each individual contribution of moneys, goods or services received directly by an intercollegiate athletics program from any affiliated or outside organization, agency or individuals (e.g., contributions by corporate sponsors) that constitutes 10 percent or more of all contributions received for intercollegiate athletics during the reporting period shall be disclosed in the notes to the statement of athletics department revenues and expenses (the "statement") and included in the agreed-upon procedures report. Disclosure of the source of funds, goods and services as well as the value associated these items, shall also be made within the notes to the statement. In addition as part of the minimum agreed-upon procedures, the independent accountant shall obtain and review supporting documentation for each such contribution.

Findings: All contributions that constitute 10 percent or more of all contributions received for intercollegiate athletics during the reporting period were disclosed in the statement. Testing of supporting documentation yielded no exceptions.

- b. A description of the institution's policies and procedures for acquiring, approving, depreciating, and disposing of intercollegiate athletics-related assets, shall be included in the notes to the statement.

Findings: The policies were included in the notes to the statement. Further procedures yielded no exceptions.

- c. The independent accountant shall also obtain repayment schedules for all outstanding intercollegiate athletics debt maintained by the institution during the reporting period. At a minimum, the independent accountant shall recalculate annual maturities (consisting of principal and interest) provided in the schedules obtained. The independent accountant shall then agree to the total annual maturities to supporting documentation and the institution's general ledger, as applicable. The repayment schedule(s) shall be included in the notes to the statement.

Findings: The schedules were included in the notes to the statement. Further procedures yielded no exceptions.

IV. Minimum Agreed-Upon Procedures Program for Revenues

Following is a complete listing of the minimum agreed-upon procedures for revenues, by category, to be performed to the statement by the independent accountant.

Before the commencement of fieldwork, the independent accountant should ensure that the amounts reported on the statement agree to the institution's general ledger. For all revenue categories perform the minimum agreed-upon procedures set forth below.

1. Compare and agree each operating revenue category reported in the statement during the reporting period to supporting schedules provided by the institution. If a specific reporting category is less than 4.0% of the total revenues, no procedures are required for that specific category.

a. Athletic Student Aid

- Select a sample of students (10% of the total student-athletes for institutions who have used NCAA's Compliance Assistant (CA) software to prepare athletic aid detail, with a maximum sample size of 40, and

20% of total student-athletes for institutions who have not, with a maximum sample size of 60) from the listing of institutional student aid recipients during the reporting period.

- Obtain individual student-account detail for each selection and compare total aid in the institution's student system to the student's detail in CA or the institution report that ties directly to the NCAA Membership Financial Reporting System.
- Perform a check of each student selected to ensure their information was reported accurately in either the NCAA's CA software or entered directly into the NCAA membership Financial Reporting System using the following criteria:
 - The equivalency value of each student-athlete in all sports, including head-count sports, need to be converted to full-time equivalency value. The full-time equivalency value is calculated using the athletic grant amount reported on the squad list as the numerator and the full grant amount which is the total cost for tuition, fees, books, room and board for an academic year as the denominator. If using the NCAA CA software, this equivalency value will be calculated for you on the squad list labeled "Revenue Distribution Equivalent Award."
 - Grants-in-aid is calculated by using the revenue distribution equivalencies by sport and in aggregate. (Athletic grant amount divided by the full grant amount).
 - Other expenses related to attendance (also known as cost of attendance) should not be included in grants-in-aid revenue distribution equivalencies. Only tuition, fees, room, board, and course-related books are countable for grants-in-aid revenue distribution per Bylaw 20.02.07. Note: for compliance purposes equivalencies may include other expenses related to attendance per Bylaw 15.02.2, however these expenses are not allowable to be included for revenue distribution equivalencies.
 - Full grant amount should be entered as a full year of tuition, not a semester or quarter.
 - Student-athletes are to be counted once, regardless of multiple sport participation, and should not receive a revenue distribution equivalency greater than 1.00.
 - Athletics grants are valid for revenue distribution purposes only in sports in which the NCAA conducts championships competition, emerging sports for women and bowl subdivision football.
 - Grants-in-aid are valid for revenue distribution purposes in NCAA sports that do not meet the minimum contests and participants' requirements of Bylaw 20.9.6.3.
 - Institutions providing grants to student-athletes listed on the CRDE as "Exhausted Eligibility (fifth-year)" or "Medical" receive credit in the grants-in-aid component.
 - The athletics aid equivalency cannot exceed maximum equivalency limits. However, the total revenue distribution equivalency can exceed maximum equivalency limits due to exhausted eligibility and medical equivalencies (reference Bylaw 15.5.3.1).
 - If a sport is discontinued and the grant(s) are still being honored by the institution, the grant(s) are included in student-athlete aid for revenue distribution purposes.
 - All equivalency calculations should be rounded to two decimal places.
 - If a selected student received a Pell Grant, ensure the value of the grant is not included in the calculation of equivalencies or the total dollar amount of student athletic aid expense for the institution.
 - If a selected student received a Pell Grant, ensure the student's grant was included in the total number and total value of Pell Grants reported for Revenue Distribution purposes in the NCAA Membership Financial Reporting System.
- Recalculate totals for each sport and overall.

Findings: We found no exceptions as a result of these procedures.

VI. Additional Minimum Agreed-Upon Procedures

1. In order for NCAA to place reliance on the Division I financial reporting to calculate the NCAA distributions, which is a benefit to the institution, the following procedure will be performed:

a. For Grants-in-Aid

- i. Compare and agree the sports sponsored reported in the NCAA Membership Financial Reporting System to the Calculation of Revenue Distribution Equivalencies Report (CRDE) from Compliance Assistant (CA) or other report that supports the equivalency calculations from the institution. The NCAA Membership Financial Reporting System populates the sports from the NCAA Sports Sponsorship and Demographic Form as they are reported by the institution. If there is a discrepancy in the sports sponsored between the NCAA Membership Financial Reporting System and the CRDE or other report that supports the equivalency calculation, inquire about the discrepancy and report the justification in the AUP report.
- ii. Compare current year Grants-in-Aid revenue distribution equivalencies to prior year reported equivalencies per the Membership Financial Report submission. Inquire and document an explanation for any variance greater than +/-4%.

Findings: We found no exceptions as a result of these procedures. Grants-in-aid revenue distribution equivalencies did increase from prior year due to an increased scholarship investment in women's sports and football by the Institution.

b. For Sports Sponsorship:

- i. Obtain the institution's Sports Sponsorship and Demographics Form submitted to the NCAA for the reporting year. Validate that the countable NCAA sports reported by the institution meet the minimum requirements set forth in Bylaw 20.9.6.3 for the number of contests and the number of participants. If the institution requested and/or received a waiver related to minimum contests or minimum participants for a sport, that sport should not qualify as a sponsored sport for the purposes of revenue distribution. Also, only sports in which the NCAA conducts championship competitions, emerging sports for women and bowl subdivision football are eligible. Once countable sports have been validated, ensure that the institution has properly reported these sports as countable for revenue distribution purposes within the NCAA Membership Financial Reporting System. Note: Any discrepancies MUST be resolved within the NCAA Membership Financial Reporting System prior to the report being submitted to the NCAA.
- ii. Compare current year number of Sports Sponsored to prior year reported total per the Membership Financial Report submission. Inquire and document an explanation for any variance.

Findings: We found no exceptions as a result of these procedures.

c. For Pell Grants:

- i. Agree the total number of Division I student-athletes who, during the academic year, received a Pell Grant award (e.g. Pell Grant recipients on Full Athletic Aid, Pell Grant recipients on Partial Athletic Aid and Pell Grant recipients with no Athletic Aid) and the total value of these Pell Grants reported in the NCAA Membership Financial Reporting System to a report, generated out of the institution's financial aid records, of all student-athlete Pell Grants. Note: individual student-aid file testing done in student athletic aid testing in step V.(a.) above should tie any selected student athletes who receive Pell

Grants back to the report of all student athlete Pell Grants to test the completeness and accuracy of the report.

- ii. Compare current year Pell Grants total to prior year reported total per the Membership Financial Report submission. Inquire and document an explanation for any variance greater than +/-20 grants.

Findings: We found no exceptions as a result of these procedures. Total Pell Grants as compared to the prior year increased due to the Federal Government awarding more grants to students in FY 19 that were enrolled as Student Athletes.

VII. Minimum Agreed-Upon Procedures Program For Other Reporting Items

e. Value of Institutional Endowments

- Agree the total fair market value of institutional endowments to supporting documentation, the institution's general ledger and/or audited financial statements, if available.

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES

A. Organization and Purpose

Appalachian State University is a constituent institution of The University of North Carolina System, which is a component unit of the State of North Carolina and an integral part of the State's Comprehensive Annual Financial Report. Appalachian State University is classified as a Division I institution by the National Collegiate Athletic Association (NCAA).

B. Basis of Presentation

The preceding statement of revenues and expenses presents the University's intercollegiate athletic program's activity in accordance with the National Collegiate Athletic Association Bylaw 3.2.4.17. Those guidelines require the presentation of all revenues, expenses and capitalized expenditures on behalf of the institution's intercollegiate athletics program, including those by outside entities. This presentation is not intended to provide a complete presentation of the program's financial position or its changes in the net assets and cash flows.

C. Basis of Accounting

The preceding statement of revenues and expenses was prepared using the economic resource measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred.

D. Non-Monetary Transactions

The University reports goods and services received either by donation or in an exchange transaction at their fair value at the date of receipt.

During the year, leased vehicles were provided at no charge to the University. The leased vehicles were provided in exchange for free tickets and recognition as sponsors and/or advertising. The values for these donations have been recorded as gifts in the preceding statement of revenues and expenses.

Note 2 CAPITAL ASSETS

Capital Assets are stated at cost at date of acquisition or fair value at date of donation in the case of gifts. The value of assets constructed includes all material, direct and indirect construction costs. Interest costs incurred during the period of construction are capitalized.

The University's intercollegiate athletics program capitalizes assets that have a value or cost in excess of \$5,000 at the date of acquisition and an expected useful life of more than one year. Library books are generally not considered to have a useful life of more than one year unless part of a collection and are expensed in the year of acquisition.

Depreciation is computed using the straight-line and/or units of output method over the estimated useful lives of the assets, generally 10 to 75 years for general infrastructure, 10 to 100 years for buildings, and 2 to 30 years for equipment and computer software.

A summary of changes in the capital assets for the year ended June 30, 2020, is presented as follows:
